

## Your assets and funding your Trust

By completing this worksheet, you will help us prepare the funding materials for your Trust. As you may already know, Trusts usually avoid probate. Assets in a Trust may pass on to your beneficiaries outside of a probate proceeding thereby saving time and court fees. Therefore, if your Trust is not fully funded, these savings and benefits may not be fully realized. For that reason, it is important for us to know about all of the assets you own. Please fill out this worksheet in its entirety. We will use the information you provide to help you re-title assets in the name of your Trust which is the process commonly referred to as funding your Trust. For some assets we will help you update your primary and secondary beneficiaries rather than connect the assets to your Trust.

### What do I do with this worksheet once it is complete?

Once you have completed this worksheet, please return it to our office before your final appointment.

### What if I have questions about the information requested?

We are always available to help you, so please feel free to call or email us. Additionally information regarding estate plan documents has been posted on our website, which you may find helpful.

We can be reached at

### Why is this an important part of my estate plan?

If you have a Trust as part of your estate plan, it should be properly funded. A Trust cannot manage assets unless those assets are connected to your Trust.
